Resold or Limited Facilities-Based Local
Exchange and Resold Interexchange

Application 21-05-015

**DECISION GRANTING TELIAX, INC.
A CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY
TO PROVIDE LIMITED FACILITIES-BASED AND RESOLD
COMPETITIVE LOCAL EXCHANGE SERVICES
AND RESOLD INTEREXCHANGE SERVICES IN CALIFORNIA**

Summary

Pursuant to Public Utilities Code Section 1001, we grant Teliix, Inc. a certificate of public convenience and necessity to provide limited facilities-based and resold competitive local exchange and interexchange services in California subject to the terms and conditions set forth in the Ordering Paragraphs.

This proceeding is closed.

1. Background

On May 20, 2021, Teliix, Inc. (Teliix) filed this instant Application with the California Public Utilities Commission (Commission) for a certificate of public convenience and necessity (CPCN) to operate as a provider of resold limited facilities-based local exchange service in the service territories of Pacific Bell

Telephone Company d/b/a AT&T California (AT&T California), Frontier California Inc. (Frontier California), Citizens Telecommunications Company of California, Inc. d/b/a Frontier Communications of California (Frontier Communications), and Consolidated Communications of California Company (Consolidated Communications, formerly SureWest Telephone), and resold interexchange services throughout California (Application).¹

Teliix proposes to offer wholesale and retail competitive telecommunications service, including local exchange, interexchange, and exchange access services, within the State of California using its own facilities and services available from other facilities-based carriers.² Teliix's principal place of business is located at 2150 West 29th Ave #200, Denver, Colorado 80211.

The Application appeared on the Commission's public Calendar on May 24, 2021. No protests to the Application have been received by the Commission.

On July 22, 2021, the Administrative Law Judge (ALJ) issued a Ruling directing Teliix to provide supplemental information in support of its Application. Teliix provided the requested information on August 9, 2021.

A prehearing conference was held on August 30, 2021. The Assigned Commissioner's Scoping Memo and Ruling was issued on November 24, 2021, addressing such matters as issues of law and fact in the proceeding, the need for hearing, scheduling for resolving the matter, and other matters deemed necessary.

¹ See Teliix's "Response to Administrative Law Judge's Ruling Directing Filing of Additional Information" filed with the Commission on August 9, 2021.

² Application at 3.

2. Jurisdiction

Public Utilities (Pub. Util.) Code Section 216(a) defines the term “Public utility” to include a “telephone corporation,” which in turn is defined in Pub. Util. Code Section 234(a) as “every corporation or person owning, controlling, operating, or managing any telephone line for compensation within this state.”

Teliix proposes to provide wholesale and retail competitive telecommunications service, including local exchange and interexchange and exchange access services within the State of California.³ Accordingly, Teliix is a telephone corporation and a public utility subject to our jurisdiction.

3. California Environmental Quality Act

Pursuant to the California Environmental Quality Act (CEQA)⁴ and Rule 2.4 of the Commission’s Rules of Practice and Procedure (Rules), the Commission acts as the designated lead agency to consider the environmental consequences of projects that are subject to our approval in order that adverse effects are avoided, alternatives are investigated, and environmental quality is restored or enhanced to the fullest extent possible. Since Teliix states that it “will utilize its own switching facilities in combination with transport components provided by other facilities-based carriers,”⁵ and that does not intend to construct any facilities other than equipment to be installed in existing buildings or structures, it can be seen with certainty that there is no possibility that granting this application will have an adverse impact upon the environment. Before it can construct facilities other than equipment to be installed in existing

⁵ Application at 3-4; and Exhibit C to the Application.

buildings or structures, Teliix must file for additional authority, and submit to any necessary CEQA review.

4. Financial Qualifications

To be granted a CPCN, an applicant for authority to provide limited facilities-based and resold competitive local exchange services and/or resold interexchange services must demonstrate that it has a minimum of \$100,000 cash or cash equivalent, reasonably liquid and readily available to meet the firm's start-up expenses.⁶ In the application, Teliix provided financial information in confidential Exhibit E to the Application that demonstrated that Teliix has \$100,000 cash or cash equivalent, reasonably liquid and readily available to meet its start-up expenses. Accordingly, since Teliix has provided documentation that it possesses a minimum of \$100,000 that is reasonably liquid and available, it has demonstrated that it has sufficient funds to meet its start-up expenses and has fulfilled this requirement. Teliix's financial documentation will be subject to verification and review by the Commission for one year to ensure that such funds are available.

In addition to demonstrating financial fitness, Teliix must also demonstrate it has an additional \$25,000 or an amount equal to the deposit that may be required by incumbent carriers which Teliix would interconnect with, and which fund must be available to Teliix for one year following certification.⁷ Teliix proposed to initially interconnect with AT&T California, Frontier

⁶ The financial requirement for competitive local exchange carriers (CLEC) is contained in Decision (D.) 95-12-056, Appendix C. The financial requirement for non-dominant interexchange carriers (NDIEC) is contained in D.91-10-041.

⁷ The requirement for competitive local carrier (CLC) applicants to demonstrate that they have additional financial resources to meet any deposits required by underlying local exchange carriers and/or interexchange carriers is set forth in D.95-12-056, Appendix C. For NDIECs, the requirement is found in D.93-05-010.

California, Frontier Communications, and Consolidated Communications. In addition to the \$100,000 discussed above, Teliix stated that no deposit is anticipated to be paid.⁸ Therefore, no additional resources are required at this time to cover deposits.

5. Technical Qualifications

To be granted a CPCN for authority to provide competitive local exchange and interexchange service, an applicant must make a reasonable showing of managerial and technical expertise in telecommunications or a related business.⁹ Teliix supplied biographical information on its management in Exhibit H to its application that demonstrates it has sufficient expertise and training to operate as a telecommunications provider.

In Exhibit I to its Application, Teliix verified that no one associated with or employed by Teliix as an affiliate, officer, director, partner, or owner of more than 10 percent of Teliix, or anyone acting in a management capacity for Teliix:

(a) held one of these positions with a company that filed for bankruptcy; (b) been personally found liable, or held one of these positions with a company that has been found liable, for fraud, dishonesty, failure to disclose, or misrepresentations to consumers or others; (c) been convicted of a felony; (d) been (to his/her knowledge) the subject of a criminal referral by judge or public agency; (e) had a telecommunications license or operating authority denied, suspended, revoked, or limited in any jurisdiction; (f) personally entered into a settlement, or held one of these positions with a company that has entered into settlement of criminal or civil claims involving violations of §§ 17000 *et seq.*, §§ 17200 *et seq.*, or §§ 17500 *et seq.* of the California Business & Professions Code, or of any other statute, regulation, or decisional law relating to fraud,

⁸ Application at 5. Nonetheless, the financial information provided showed that Applicants have adequate funds to cover any deposits that may be required by incumbent carriers.

dishonesty, failure to disclose, or misrepresentations to consumers or others; or (g) been found to have violated any statute, law, or rule pertaining to public utilities or other regulated industries; or (h) entered into any settlement agreements or made any voluntary payments or agreed to any other type of monetary forfeitures in resolution of any action by any regulatory body, agency, or attorney general.¹⁰

Also, to the best of Teliax's knowledge, neither Teliax, or any affiliate, officer, director, partner, nor owner of more than 10 percent of Teliax, or any person acting in such capacity whether or not formally appointed, is being, or has been investigated by the Federal Communications Commission or any law enforcement or regulatory agency for failure to comply with any law, rule or order.¹¹

For the above reasons, we find that Teliax is in compliance with the requirements of D.13-05-035.

6. Tariffs (Detariffed Rates Requested)

Teliax has requested detariffed status in order to offer its services on a detariffed basis and on a non-discriminatory basis pursuant to a publicly posted price list.¹² Applicant indicated that it will comply with all of the Commission's requirements as contained in General Order (GO) 96-B - Telecommunications Industry Rules (Telecommunications Rules),¹³ with regards to the provision of detariffed services.

Pursuant to GO 96-B, the Commission may grant exemptions "from the general requirement ... that a Utility serve its California customers under its filed

¹⁰ These certifications are required by D.13-05-035, Ordering Paragraph 14.

tariffs,” and such exemptions, allowing the Utility to provide detariffed service, may be granted to a specific Utility or type of Utility, or for specific services offered by the Utility or type of Utility.”¹⁴ According to the Telecommunications Rules, Applicant must: (1) post all of its detariffed rates, terms, and conditions of service on an internet site pursuant to Rule 5.2 of GO 96-B; and (2) notify its customers of any service not provided under tariff, of higher rates or charges, of more restrictive terms or conditions, withdrawal of service, or transfer of ownership or customer base pursuant to Rule 5.3 of GO 96-B. Further, Applicant must post a description of its services and price list on its website and file an Access Service tariff prior to billing any carriers for Intrastate Switched Access service.

Applicant should note that detariffed status is not available for carriers providing residential competitive local exchange service. Accordingly, Teliax may not provide residential competitive local exchange services in California without first filing its tariffs with the Commission.

7. Map of Service Territory

To be granted a CPCN for authority to provide competitive local exchange service, an applicant must provide a map of the service territories it proposes to serve.¹⁵ In Exhibit D to its Application, Teliax provided a map of the location of its proposed service territory, in compliance with this requirement.¹⁶

¹⁴ See GO 96-B, Industry Rule 5, under “Detariffed and Non-tariffed Service.”

¹⁵ D.95-12-056 at Appendix C, Rule 4.F.

¹⁶ Additionally, on August 9, 2021, Teliax clarified that it intends to only offer competitive local exchange services in the service territories of the incumbent local exchange carriers operating under the Uniform Regulatory Framework, which includes AT&T California, Frontier California, Frontier Communications, and Consolidated Communications. (See, *Teliax’s August 9, 2021 Response to the ALJ Ruling directing Teliax to file additional information in support of its Application*).

8. Expected Customer Base

Teliix provided its estimated customer base for the first and fifth years of operation in confidential Exhibit G to its Application. Therefore, Teliix has complied with this requirement.

9. Request for Treatment as a Non-Dominant Interexchange Carrier

Applicant requests treatment as a NDIEC, which would include exemption from the requirements of Pub. Util. Code Sections 816-830 concerning stocks and security and Section 851 concerning the encumbrance and transfer of utility property. While the Commission has granted exemption from Sections 816-830 to others, exemption from Sections 851-854 is not commonly granted and an exception is not warranted here. The Commission detailed its rules regarding exemption of NDIECs in D.85-01-008, and subsequently modified in D.85-07-081 and D.85-11-044. Applicant requests to provide service to business customers only. We grant Applicant's request for NDIEC status, which provides an exemption from Pub. Util. Code Sections 816-830 concerning stocks and security, provided that it follows all rules detailed in the above referenced decisions.¹⁷

10. Exemption from Uniform System of Accounts (USOA) Requirements

As permitted in D.99-02-038, Teliix requests exemption from the requirement to maintain its books and records according with the USOA requirements USOA.¹⁸ In D.99-02-038, the Commission relieves NDIECs, non-dominant CLECs or CLCs from certain accounting requirements. According

¹⁷ While the Commission has granted exemption from Sections 816-830 to others, exemption from Sections 851-854 has not been granted previously and is not granted here.

¹⁸ USOA was developed by the FCC and is set forth in Title 47, Code of Federal Regulations, Part 32. California adopted a version of the FCC's USOA in Order Instituting Investigation 87-02-023.

to D.99-02-038, “CLCs . . . and NDIECS which are not part of an [incumbent local exchange carrier] ILEC corporate entity could be relieved of the obligation to keep their books and records for their CLC and NDIEC operations in accordance with the USOA pursuant to Title 47, Code of Federal Regulations, Part 32,” but instead be required to keep their books and records in accordance with Generally Accepted Accounting Principles (GAAP).

Thus, pursuant to D.99-02-038, the Commission has the power to exempt NDIECs and CLCs that are not part of an ILEC corporate entity from complying with USOA requirements. In D.99-02-038, the Commission found that the exemption applied to carriers offering local and interexchange services including CLECs, and concluded that the exemption “will not hinder the Commission’s enforcement responsibilities,” because exempt CLCs, NDIECs and CLECs are still required to maintain their books in accordance with the GAAP, and continue to make their accounting records available to the Commission upon demand pursuant to Pub. Util. Code Section 581.

Pursuant to D.99-02-038, the Commission grants Teliix the requested relief from the requirements to keep its books of account in conformance with USOA. In granting this relief, the Commission requires Teliix to maintain its books in accordance with GAAP; and further requires Teliix to comply with Section 581 by making its accounting books available to the Commission upon demand.

11. Safety Considerations

With the adoption of the *Safety Policy Statement of the California Public Utilities Commission* on July 10, 2014, the Commission has, among other things, heightened its focus on the potential safety implications of every proceeding. We have considered the potential safety implications here. The Commission is satisfied that Teliix will meet the Commission’s minimum safety goals and

expectations of CLECs because: (1) Teliix has taken steps to meet the financial requirements as set forth in this decision for a facilities-based CLEC, and (2) Teliix is a public utility that is required pursuant to Pub. Util. Code Section 451 to "... furnish and maintain such adequate, efficient, just and reasonable service, instrumentalities, equipment, and facilities, including telephone facilities ... as are necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

12. Conclusion

We conclude that the application conforms to our rules for certification as a competitive local exchange and interexchange carrier. Accordingly, we grant Teliix a CPCN to provide limited facilities-based and resold competitive local exchange services in the service territory of AT&T California, Frontier California, Frontier Communications, and Consolidated Communications and resold interexchange services in California subject to compliance with the terms and conditions set forth in the Ordering Paragraphs.

The CPCN granted by this decision provides benefits to Teliix and corresponding obligations. Teliix receives authority to operate in the prescribed service territory, and this authority enables Teliix, pursuant to Section 251 of the 1934 Communications Act, as amended by the 1996 Telecommunications Act (47 U.S.C. § 251), to interconnect with telecommunications carriers.¹⁹ This authority also enables Teliix to obtain access to public rights-of-way in California as set forth in D.98-10-058, and approved in *T-Mobile West LLC v. City and County of San Francisco*, 6 Cal.5th 1107 (2019)" — subject to the CEQA requirements set forth in this decision.

¹⁹ The California Public Utilities Code uses the term "telephone corporation." Its counterpart in federal law is a "telecommunications carrier."

In return, Teliix is obligated to comply with all Public Utilities Code provisions, Commission rules, General Orders, and decisions applicable to telephone corporations providing approved services. The applicable statutes, rules, General Orders, and decisions include, but are not limited to consumer protection rules, tariffing, and reporting requirements. Moreover, Teliix is obligated to pay all Commission prescribed user fees and public purpose program surcharges as set forth in the Appendix B of this decision, to comply with CEQA, and to adhere to Pub. Util. Code Section 451 which states that every public utility "...shall furnish and maintain such adequate, efficient, just, and reasonable service, instrumentalities, equipment, and facilities, including telephone facilities, as defined in § 54.1 of the Civil Code, as are necessary to promote the safety, health, comfort, and convenience of its patrons, employees, and the public."

13. Request to File Under Seal

Pursuant to Rule 11.4, Teliix has filed motions for leave to file Exhibit E (Financial Information) and Exhibit G (Customer Base Estimates) to the Application as confidential materials under seal. Teliix represents that the information is sensitive, and disclosure could place Teliix at an unfair business disadvantage. We have granted similar requests in the past and do so here.

14. Comments on Draft Decision
